flexicon®

One-stop-source for engineered, integrated bulk handling systems

You can alleviate the burden and risk of designing your system, coordinating multiple suppliers, integrating components, trouble-shooting start-up and assuming responsibility for system performance, by relying on Flexicon for it all.

Flexicon can evaluate your bulk material(s), plant layout, through-put rates, residual product limitations, cleanliness, noise limitations, access, cost, cycle times and other parameters, and outline the solution to your bulk handling problem.

Because Flexicon offers a wide range of equipment, including mechanical and pneumatic conveyors, as well as systems that incorporate equipment of other manufacturers, you are assured of receiving a recommendation based on your requirement, not on limited equipment availability.

Flexicon can submit recommendations in the form of CAD drawings that integrate equipment manufactured by Flexicon and by others, with new or existing equipment in your plant, and provide a competitive price quotation.

Using samples of bulk material you supply, Flexicon can evaluate and/or test your material in a state-of-the-art test laboratory on full-size equipment configured and accessorized to simulate your system, supply the equipment on time, help you install it, train your personnel, guarantee its performance and service it on-site.

From concept to completion, Flexicon can provide everything it takes to solve your bulk handling problem efficiently, economically and rapidly.

Choose from a broad range of reliable, high performance equipment in carbon steel with durable industrial finishes, or in stainless steel designed and constructed to industrial, food, dairy or pharmaceutical standards:

- Flexible Screw Conveyors
- Pneumatic Conveyors
- Volumetric Feeding Conveyors
- Multiple Delivery Systems
- Bulk Bag Fillers
- Bulk Bag Dischargers
- Bulk Bag Conditioners
- Weigh Batching Systems
- Manual Dumping Stations
- Lift-and-Seal/Open Chute Drum Dumpers
- Storage Vessels

Flexicon also can custom-engineer automated, plant-wide bulk handling and processing systems that integrate Flexicon equipment with bulk handling and process equipment of other manufacturers:

- Gravimetric/Volumetric Feeders
- Silos and other storage vessels
- Dryers/Coolers
- Mixers/Blenders
- Screeners
- Crushers/Grinders
- Packaging Machines
- Other bulk processing equipment
